

Namdev Rathod

Senior DevOps Engineer | AWS & Kubernetes Certified | Cloud & Infra Specialist

Email: namdev.it@gmail.com **Contact:** +91 – 98XX75XXXX [LinkedIn](#) | [GitHub](#) | [YouTube](#)

- 14+ years of IT experience across **DevOps, FinOps, Cloud Engineering and Infrastructure Management** in eCommerce, Banking, Logistics, Hosting and Data Center domains.
- Hands-on expertise in **AWS (CDK, Terraform and CloudFormation), Kubernetes (EKS), CI/CD (Jenkins, GitHub Actions, Harness and GitLab CI) and DevSecOps practices.**
- Proven track record in **cloud cost optimization (FinOps), infra automation, security governance and migrations (On-Prem to Cloud, Databases to RDS).**
- Strong skills in **observability & monitoring** using Datadog APM, Prometheus, Grafana, Nagios and CloudWatch, ensuring high system availability and performance.

KEY SKILLS

Application Deployment | Infrastructure Automation | CI/CD | Containerization | Cloud Security | System Hardening | FinOps & Cost Optimization | Compliance & Audits

TOOLS & TECHNOLOGIES

Cloud: AWS, Azure | **Container Platform:** Docker, ECS Fargate, Kubernetes | **IaC:** Terraform, AWS CDK & Cloud Formation **CI/CD:** Jenkins, GitHub Actions, GitLab, GOCD & Harness | **Version Control:** Git, GitHub, GitLab, Bit Bucket | **Database Management:** MySQL, PostgreSQL, DynamoDB, MongoDB | **Scripting Languages:** Python, Shell, NodeJS | **CDN:** CloudFront | **Application Servers:** Nginx, Apache, Tomcat

Certifications & Recognition

- Certified Kubernetes Administrator
- AWS Certified Solutions Architect Professional
- AWS Certified Solutions Architect - Associate
- RedHat Certified Engineer

Extra Milestones

- [AWS Community Builder](#) – Cloud DevOps & Operations (2023 – Present)
- [YouTube](#)
 - **Founded & Scaled** a DevOps-focused YouTube channel **DevOps With Namdev** to **7,500+ subscribers**, delivering **250+ high-quality technical videos** and achieving **400,000+ views worldwide** in 2 years.
 - **Empowered the Community** by sharing practical DevOps tips, tools and career guidance, directly supporting **20+ professionals in securing IT/DevOps roles.**
- [LinkedIn](#)
 - **LinkedIn Thought Leadership:** Grew a professional network of **13,000+ followers**, consistently posting **daily insights, blogs and knowledge shares** on DevOps tools, cloud practices and career tips.
 - **Content Performance:** Achieved **1,023,314+ impressions** and **8,537+ engagements**, reflecting strong reach, influence and community trust.

PROFESSIONAL EXPERIENCE

System Analyst Cybage Software	Jan 2019 – Present
DevOps Engineer XpressBees	Aug 2017 – Dec 2018
System Administrator HSBC	Jan 2017 – Aug 2017
Data Center Engineer FirstCry	Mar 2015 – Dec 2016
System Administrator HostIndia	Oct 2012 – Feb 2015
Assistant MIS Dhoot Transmission	May 2011 – Sep 2012

Cybage Software Pvt. Ltd.

Roles & Responsibilities:

- Took **complete ownership of infrastructure management** across multiple client projects, ensuring stability, scalability, security and cost optimization.
- Designed, implemented and automated **AWS cloud infrastructure** using **CDK, Terraform and Cloud Formation**, driving standardization and operational efficiency.
- Championed **FinOps practices** by monitoring and optimizing cloud costs, implementing infrastructure resizing and driving cost governance initiatives.
- Spearheaded **EKS (Elastic Kubernetes Service)** cluster setup from scratch for multiple environments, including **provisioning, pod management, deployment strategies, autoscaling and security hardening**.
- Automated CI/CD pipelines with **Jenkins and GitHub Actions**, reducing deployment time and enabling faster, secure and consistent delivery.
- Implemented **DevSecOps practices** by integrating **SonarQube** for static code analysis, ensuring compliance with security and quality standards.
- Established **end-to-end monitoring and observability frameworks** using **Datadog APM, Prometheus and Grafana** for proactive issue detection and performance optimization.
- Deployed and managed **Nginx web servers** with reverse proxy, load balancing, and **Let's Encrypt SSL** automation for secure and high-availability services.
- Ensured **security governance** with IAM roles, encryption and VPC design and compliance best practices across cloud environments.
- Collaborated directly with **clients for requirement gathering, architecture discussions and solution design**, acting as a trusted technology partner.
- Mentored and guided team members on DevOps best practices, cloud adoption, monitoring strategies and automation frameworks.

FirstCry

Roles & Responsibilities:

- Took **end-to-end ownership of AWS cloud infrastructure** including **account management, cost optimization, security governance and performance monitoring**
- Managed and maintained **in-house data center infrastructure** ensuring seamless operations, scalability and availability of business-critical services
- Drove **On-Premises to Cloud migration initiatives** including application, database and infra migration strategies to AWS
- Executed **database migration** from **on-prem MySQL to AWS RDS** using **AWS DMS (Database Migration Service)** with minimal downtime and performance impact
- Implemented **FinOps best practices** by installing and leveraging **open-source tools** for monitoring, logging and automation to significantly reduce licensing costs
- Led **inventory and asset management** for both on-prem and cloud environments ensuring optimal resource utilization and compliance
- Defined and enforced **infrastructure security standards** with IAM governance and backup strategies for hybrid environments
- Collaborated with cross-functional teams to design and deliver **cost-efficient, secure and scalable hybrid cloud solutions** tailored to business needs

Education

-
- **Bachelor of Computer Application (BCA)** | Swami Ramanand Teerth Marathwada University | 2011
